

Are you looking for Work Experience?

As part of our commitment to supporting young people into work and training, Bradford Council is offering a number of opportunities to anyone who is out of work aged 16-24.

One of these opportunities is a work experience placement with a local employer, which can help build your confidence and develop your skills in the world of work.

We can organise a short taster placement of 2-3 days, or up to 2 weeks in a real work situation.

How we will support you...

Preparation

We will help you to prepare for your placement by inviting you to a pre-placement workshop

In-Placement Support

We will check in with you and your manager at your placement to make sure it's going smoothly and help you to progress your skills in the workplace

Future Planning

We will help you to reflect on what you have learnt and look at your next steps in your job search journey

Expenses Covered

We will cover your travel expenses to your placement and any workshops you attend

On successful completion of the placement, all participants will be awarded a Work Experience Certificate to show future employers your commitment to the Future Boost programme

For more information and to download an application form, visit www.skillshouse.co.uk/future-boost/ If you have any queries, please contact xperience@bradford.gov.uk or telephone 01274 439600 and quote 'Future Boost' so we can direct your call
